Welcome Message

Dear Friends,

Greetings from Pune, India!

On behalf of the Foundation for Research and Education in Endoscopy (FREE), it gives us great pleasure to announce the **9th International Conference and Hands-on Workshop on IEE / Endo Luminal Surgery / Third Space Endoscopy on 28th, 29th & 30th July 2023 at Pune!**

This year, the theme of the conference is – '**Mastering the Art, Understanding the Science!**' The meeting will be conducted using a new interactive format wherein presenters and participants will be able to discuss nuances about diagnosis and treatment of these disorders. As more centers adopt these techniques in routine practice, the focus of the scientific discussions will be to identify and discuss common pitfalls and areas of troubleshooting during diagnosis and treatment, and towards improving efficiency and safety while performing these procedures. These discussions will be supplemented by live cases streamed live from the Shivanand Desai Center for Digestive Disorders, Deenanath Mangeshkar Hospital and Research Center, Pune, India!

An expert panel of International Experts will join us for this meeting, along with our own galaxy of National Stars!

The one-and-a-half-day conference begins post-lunch on Friday July 28th till Saturday 29th evening, and will consist of lectures, clinical presentations, panel discussions and live case demonstrations. On Sunday 30th, we shall have the ever-popular hands-on training sessions on different devices and various aspects of tunneling, endoscopic resections and closure techniques! Refer to the program for details.

We look forward to welcoming you to Pune for this one-of-its-kind international course! In its 9th year, our course boasts of more than 2000 satisfied attendees and counting! Don't miss the uniquely crafted hands-on training experience!
