

BLOCK YOUR DATES !!!

First of its kind

Dual Theme International Conference
& Hands on Workshop on

Interventional EUS & Third Space Endoscopy

Organised by

Under the aegis of

26th, 27th & 28th April 2019

Venue : Hotel Conrad, Pune

Confirmed International Faculty

Prof. Kenshi Yao,
Japan

Prof. Noriya Uedo,
Japan

Prof. Rajvinder Singh,
Australia

Prof. Kazuo Hara,
Japan

Prof. Manuel Perez
Miranda
Spain

Prof. Thawee
Ratanachu-ek,
Thailand

Program Highlights

- Two & Half days of intensive Hands on training in NBI, ESD, Third Space Endoscopy & Interventional EUS
- Live demonstrations of Interventional EUS procedures
- Live demonstrations of NBI, EMR, ESD & Third Space Endoscopy procedures
- Video lectures, symposia, debates & panel discussions by International & National Masters
- Hands on training on porcine models for ESD, POEM, pseudocyst & EUS guided biliary drainage, endoscopic suturing, GERDx – on all three days
- Live demonstration of new procedures – EFTR, GERDx, POEM-F, PREM, ESG, ORISE™ system, endoscopic suturing

Welcome Message

Dear Friends,

Wish you a very happy new year 2019!

It gives me great pleasure to announce our **5th International Dual Theme Conference on NBI/EMR/ESD/Third Space Endoscopy & Interventional EUS and Hands-on training course scheduled on 26, 27, 28th April 2019 @ Pune.**

This year, based on the feedback received from participants, we have added Interventional EUS in addition to our regular course on NBI / ESD / Third Space Endoscopy. The course this year is supported & co-organised by **ANBIIG** (Asian Novel Bio Imaging & Intervention Group) and the **Asian EUS Group** (AEG).

The frontiers of Third Space Endoscopy have been ever expanding; starting with POEM a decade ago to emerging technologies like Endoscopic suturing, Endoscopic Sleeve Gastroplasty (ESG) and Endoscopic Anti-reflux modalities like GERDx in recent times. Similarly, advances in Interventional EUS technology has made it possible to perform bowel anastomoses and gall bladder and biliary interventions.

While maintaining our focus on our core values of hands on training, our meeting this year will encompass all these innovations & developments. During this three-day course, there will be video lectures, symposia and live demonstrations related to IEE, EMR & ESD, Third Space Endoscopy procedures and endoscopic suturing & Endoscopic Sleeve Gastroplasty. Dedicated sessions on Interventional EUS will also be available.

Daily hands-on sessions will be conducted at multiple parallel stations for ESD, POEM, GERDx, endoscopic suturing and EUS guided pseudocyst and bile duct drainage.

For conference registrations and other details, please write to us on freendoscopy@gmail.com or call us on +91 99215 33381.

Please note that for registration to hands on sessions, participants need to send a separate **email on freendoscopy@gmail.com** stating their preference of sessions. No other mode of communication will be accepted. Each participant is can register for **two hands-on sessions** of their choice (strictly allotted on first-come basis); and participants can register for additional sessions can be registered for if slots are vacant. Please refer to the registration form for details of Hands-on sessions.

We look forward to welcoming you to Pune in April for this annual endoscopic surgical bonanza.

Warm regards,

Amol Bapaye
Course Director
